Disclosures and Authorizations

Privacy and Information Use. The information collected on this application is used to evaluate the request, to verify the statements made, and to service the resulting relationship. Every applicant authorizes the named parties to obtain and exchange the information needed to complete and service the request, and to retain a copy of this application whether or not it is approved.

Electronic Records Consent. By signing, the applicant consents to receive disclosures and statements electronically at the electronic address provided, and confirms the ability to open and retain documents in electronic form. Consent may be withdrawn by written notice, after which paper copies are provided at no added cost to the applicant.

Accuracy of Statements. Every applicant represents that the statements made are true and complete and understands that an intentional misstatement may delay or end consideration of the request. The applicant agrees to notify the named parties promptly of any material change before the request is final.

Servicing and Assignment. The relationship resulting from an approved request may be serviced by the named party or by a successor. The applicant will be notified of any change in the party that collects payments and maintains the account, and the posted terms will not change solely because servicing is reassigned.

Fees and Charges. A schedule of fees that may apply is provided separately. Fees are assessed only as described in that schedule and in the agreement that governs the account. Questions about a specific fee may be directed to the servicing contact named in the most recent statement.

Record Retention. A copy of this application and the supporting documents is retained for the period set by the governing agreement. The applicant may request a copy of the retained documents by contacting the servicing party in writing at the posted business address.
